Roaul Novak  
Managing Director  
California Manufacturing Technology Center  
100 S. Anaheim Blvd.. Suite 338  
Anaheim, CA 92805

Dear Mr. Novak:

I am pleased to write you regarding the excellent job which Mr. Bahman Pouranpir has done in assisting MedPac, Inc. to complete the task of becoming certified to ISO-9001, EN 46001, and MDD95/42/ECC and of obtaining the CE Mark for our medical devices.

As you may know, we requested that CMTC provide us with assistance to achieve these certifications within five months to meet the June 98 deadline for the CE Mark. We were able to accomplish the task before the deadline primarily because of Bahman's knowledge, intelligence, enthusiasm, diligence and commitment. We at MedPac have thoroughly enjoyed working with Bahman because of his good nature and positive attitude in achieving the goals. Bahman also did an excellent job in locating the proper resources to help in areas where additional assistance was required. All in all, we got through the project in a timely and productive manner.

I would like to thank CMTC for its assistance in helping us achieve our desired certifications and hope that you can continue to provide us assistance in the future.

Sincerely,

David Medoff  
Product/Quality Assurance Manager
