To Whom It May Concern:

On behalf of Teco Diagnostics, I am writing this letter of recommendation for Mr. Bahman Pouranpir.

Teco Diagnostics is a manufacturer and distributor of in vitro diagnostic products, specializing in Urine Reagent Strips, Clinical Chemistry Reagents, and One-Step Technology tests, among other medical devices.

As Teco Diagnostics' Senior Consulting Engineer, Bahman aided us in reshaping our quality system with the ultimate goal of becoming ISO certified. His systematic approach to tackling this tremendous task greatly simplified our project. Moreover, Bahman brought with him a wealth of knowledge and resources that certainly would have been difficult to source elsewhere.

Although Bahman has worked with other companies from a vast range of industries, he was quick to recognize our needs and customize our sessions to our specific processes.

Bahman has been an invaluable asset to Teco Diagnostics. I take this opportunity to extend my sincerest appreciation for all his assistance.

Best Regards,

Melanie Poucher  
Quality System Manager
