Irvine, CA 92620

Dear Mr. Pouranpir,

I am writing this letter to you to thank your assistance in transferring our quality management documentation to ISO 9001:2000.

Tru-Circle Precision (TPC) is a world-class manufacturer and distributor of comprehensive array of precision sheet metal products. In addition to other management techniques such as Six Sigma and Lean, TPC's ISO quality management system is a vital part of our operations.

You accepted the project based on a tight schedule and completed in a short time, on-time. Your input in setting up our quality-goals measurement matrix was commendable. In addition, your recommendations for document control were very valuable for us.

I am looking forward for receiving your assistance in our future projects.

Regards,

Jeff F. Hofstetter
